While Indiana Jones may be a globe-trotting adventurer, obtainer of rare antiquities and academic expert on the world's archaeological treasures, sometimes he needs a little bit of help locating especially hard-to-find artifacts. Help Indy find the missing clues, friends, locations and items from some of his past adventures in this Word Search! Archaeology is a meticulous business, though, so leave no stone unturned; don't forget to look backwards, forward, up, down and diagonally!
